

## JANG JP1 &amp; JP5 • STARTING SETTINGS

# Jang seeding chart

Proven roller and sprocket settings for common crops, developed with market farmer Erich Schultz of Steadfast Farm. Use them as a starting point and adjust for your seed lot and conditions.

## Market garden crops

| CROP                     | ROLLER | SPROCKETS (FRONT X REAR) | ROWS PER 30" BED | BRUSH |
|--------------------------|--------|--------------------------|------------------|-------|
| Arugula                  | X24    | 14 x 9                   | 10               | Down  |
| Baby brassica greens mix | F24    | 14 x 9                   | 10               | Down  |
| Baby kale                | F24    | 14 x 9                   | 10               | Down  |
| Baby spinach             | LJ24   | 14 x 9                   | 10               | Down  |
| Carrots                  | X24    | 14 x 10                  | 6-10             | Down  |
| Lettuce (loose-leaf)     | F24    | 14 x 9                   | 10               | Down  |
| Mustard / mizuna         | F24    | 14 x 9                   | 10               | Down  |
| Radish                   | F24    | 14 x 10                  | 6-10             | Down  |
| Salad turnips (Hakurei)  | Y24    | 14 x 10                  | 6                | Down  |
| Tatsoi                   | F24    | 14 x 9                   | 10               | Down  |

## Homestead crops

| CROP        | ROLLER          | SPROCKETS (FRONT X REAR) | ROWS PER 30" BED | BRUSH |
|-------------|-----------------|--------------------------|------------------|-------|
| Beans       | N6              | 14 x 9                   | 1-2              | Down  |
| Beets       | LV12            | 14 x 9                   | 3-4              | Down  |
| Corn        | A6, N6          | 14 x 9                   | 2                | Down  |
| Okra        | G6              | 14 x 9                   | 1                | Down  |
| Onions      | X6              | 11 x 11                  | 3                | Down  |
| Peas        | BL12            | 11 x 11                  | 2-3              | Down  |
| Sunflower   | A6, AA6, C6, G6 | 14 x 9                   | 2-4              | Down  |
| Swiss chard | G6              | 14 x 9                   | 2-3              | Down  |

### HOW TO READ IT

Sprockets are front x rear: "14 x 9" means the 14-tooth sprocket in front and the 9-tooth in the rear. Rows are for a 30" bed. Start with the brush down, test the roller at the bench, and push the seeder one wheel turn before the bed starts so the roller is primed.
