

JANG JP SERIES • FIVE ROWS

Jang JP5 seeder

Five Jang hoppers on one 15" frame, driven by a single chain box. Seed ten evenly spaced rows on a 30" bed in two passes, with the same rollers and sprockets as the JP1.

**SPECIFICATIONS**

Maker	Jang Automation, South Korea
Frame width	15"
Hoppers	5 (0.26 gal each), quick-release
Row spacing	3" minimum, 12" max outside rows
Shoes	Narrow 1/2" shoes (vs. 1-3/8" standard) to limit soil buildup
In-row spacing	0.5" to 20" (roller + sprockets)
Sprockets	9, 10, 11 (x2), 13, 14 teeth

JP5 KIT ROLLERS (20)

5 × F24	Radish, lettuce, greens
5 × LJ24	Spinach, cilantro
5 × X24	Arugula, carrots
5 × Y24	Salad turnips

ROWS ON A 30" BED

All 5 hoppers	10 rows, 3" apart, in 2 passes
Hoppers 1, 3, 5	6 rows, 6" apart, in 2 passes
Custom	Remove hoppers or slide the mounting bases for other spacings

HOW TO SEED A BED

Line the outer edge of the seeder up with the bed edge, make one pass, then turn and do the same from the other side. No row marking needed.

WHEN TO MOVE UP FROM A JP1

High-volume salad greens and baby roots at 10 rows per bed, or long beds where walking each row one at a time adds up. A crop change takes about three minutes.
